

Fire Extinguisher with Low Freeze Additive

Part Number: / WAEX6LFA / WAEX9LFA

During colder weather, the contents of fire extinguishers in outdoor settings are at risk of freezing their contents, making the extinguisher unfit for use. The anti-freeze additive in this extinguisher ensures it is fit for purpose all year round and can withstand low temperatures.

The water fire extinguisher is suitable for combustible materials i.e. paper and wood suitable for harsh and external environments.

Key Features:

- Plastic base for protection
- Corrosion-resistant finish
- Polyethylene internal lining
- Brass spray nozzle
- Full range of spare parts available

Technical Specification	WAEX6LFA	WAEX9LFA
Capacity	6 Litre	9 Litre
Weight (kg)	10.3	14.4
Dimensions (mm) (hxd)	531 x 162	619 x 182
Fire Rating	13A	21A
Extinguishing Medium	Demineralized Water	Demineralized Water
Working Pressure	14 bar	14 bar
Temperature Range	-10°C-+60°C	-10°C-+60°C
Cylinder Material	Steel	Steel
Pressuring Gas	Nitrogen	Nitrogen
