SITEPROTECT Smoke / Heat Detector

Part Number: CYG3L CYG4L

Smoke or Heat Detector

Designed for performance and reliability and utilising Cygnus wireless mesh technology to power the devices, SITEPROTECT is the most adaptable temporary mesh fire alarm system for use in the construction industry.

SITEPROTECT can link up to 480 individual devices in 15 different zones, including fire alarm call points, first aid alert points, smoke detectors, heat detectors, combined fire call point/first aid alert alarm and interface units.

The SITEPROTECT Smoke and Heat Detectors are fitted with EN 54 certified detector heads. These standalone devices are battery powered and integrate seamlessly with the SITEPROTECT range, providing fire detection wherever required on site.
