

COMPLETE PROTECTION AGAINST LITHIUM-ION BATTERY FIRES

THE PROBLEM

Lithium-ion battery fires are increasing across sites, vehicles, and equipment and traditional extinguishers aren't designed to stop them.

THE SOLUTION

The LFX range has been specifically designed to tackle lithium-ion battery fires across a wide range of applications.

Extinguishers (3/6/9L)

First Responder Station

EV Fire Blankets

EV Fire Cabinets

NTA 8133 certified (6L & 9L) | Fluorine-free formulation | Designed for real-world lithium-ion fire scenarios

Designed for Lithium-Ion Fires

Stops thermal runaway before it spreads

Dual Fire Protection

Effective on lithium-ion and secondary Class A fires

Rapid Response System

Everything needed for instant on-site response

Flexible & Scalable

From single extinguishers to full-site solutions

BULL

EXCELLENCE ON EVERY SITE,
AS STANDARD
