ESSENTIAL FIRE SAFETY

For essential fire safety, equip your site with fire extinguishers and First Responder Stations. They're your first line of defence, ensuring rapid response and minimising risks in any emergency.

FIRE EXTINGUISHERS

We stock and supply the full range of regulation-compliant fire extinguishers from Lithium to PFAS Free. This means we can keep your workplace safe, whatever your environment and risks.

FIRST RESPONDER STATIONS

Our First Responder Stations are trolley based mobile units that have been designed to act as a central station for fire safety, spill control and first aid. The cabinet is sealed with anti-tamper pins designed for the cabinet latch to prevent misuse, damage. They are available in four standard options:

Fire Safety

First Aid

Spill Control

Lithium Ion

CUSTOMISE

As well as the standard configurations, these stations are also fully customisable. You can build your own First Responder Station with customised signage, emergency plans, extinguishers, choice of fire alarm, cabinet type, company branding etc.
