THE ULTIMATE ELECTRIC VEHICLE FIRE SOLUTION

In today's world, where electric vehicles are ever-present, the ability to quickly and safely manage a vehicle fire is paramount. The Bridgehill Fire Blanket range is the ultimate solution, designed to effectively contain and extinguish electric vehicle fires in seconds, minimising damage and protecting what matters most.

Ultimate Vehicle Fire Solution

EV fire blankets offer the fastest and safest way to manage EV fires. They instantly contain flames, smoke, and fumes, providing an effective solution.

Eco-Friendly Solution

Bridgehill Fire Blankets don't release any toxic fumes or hazardous substances, making them a truly eco-friendly choice.
