SITEPROTECT First Aid Alert Point

Part Number: CYG5

First Aid Alert Point

The SITEPROTECT First Aid Alert Point has been designed to operate differently from all other types of alerts and alarms. Once triggered, the first aid alert will beep intermittently every 8 seconds at 85dB.

This device also operates using a single battery pack, is IP65 and works in a similar way to the standard call point type.

The first aid alert operates in a different way to an evacuate alarm to distinguish the type of alarm. When a first aid device will beep, the message is sent to the control panel to alert a first aider and can also trigger a paging system if required.

The paging system is wired to the control panel which has a designated output and transmits messages to handheld devices carried by first aiders when an alert is received. This will work in the case of all other alerts and alarms too.

Technical Specification	CYG5
Size H x W x D (mm)	265 x 170 x 90
CE Approved	230
Weight (KG [lbs.])	1.64 [3.60]
IP Rated	IP65
Frequency	868MHz
Receiver Category	Category 1
Noise Level (db.)	85db
Power	See table below
Aerial Type	Exterior Mount
Warranty	12 Months
